

## Common use or shared equipment etc

In an effort to save weight and reduce the amount of duplicated equipment, below find a table listing items and numbers of items required for sharing. It would be appreciated if you could advise which item you could bring so it could be shared.

| Item   | Minimum number needed | Volunteer names |
|--|-----------------------|-----------------|
| GPS - hand held for out of car walking             | 2                     |                 |
| Gas soldering iron                                 | 1                     |                 |
| Kangaroo Jack                                      | 1                     |                 |
| Axe  | 1                     |                 |
| Jumper leads                                       | 2                     |                 |
| BBQ Plates   | 2                     |                 |
| HF / RFDS Radios                                   | 2                     |                 |
| Shower screens and pumps                           | 2                     |                 |
| 12 Volt Arc Welder system, rods & mask             | 1                     |                 |
| Tyre jaws  | 1                     |                 |
| 12 volt Cordless Drill with 2 batteries & charger  | 1                     |                 |
| Drill bits to 12.5 mm                              | 1 set                 |                 |
| Angle grinder 240v to run off inverter or cordless | 1                     |                 |
| Drill 240v to run off inverter                     | 1                     |                 |
| 1000 watt inverter                                 | 1                     |                 |
| Lengths of all thread – 8mm & 10 mm                | 1 of each             |                 |
| 1500mm length 30 x 30mm x 3mm angle iron           | 1                     |                 |
| Quality hacksaw and spare blades                   | 2                     |                 |
| Satellite Phone                                    | 1                     |                 |
| Chain saw (Is one needed?)                         | 1                     |                 |
| Ezy Outs for bolts and screws                      | 2                     |                 |
| Impact driver                                      | 1                     |                 |
| Multimeter   | 1                     |                 |
| If you have other suggestions please advise        |                       |                 |
